Dear Commissioner Golden,

I agree with you. Employees should come forth and report any abusive behavior. The only problem is that the powers that be don't care what happens in the departments. Attached you will find a letter that I sent to L. Hannah, G. Handley, A. Harnois, R. Baldwin, W. Staples and M. Cybulski. To this date I have heard nothing, seen nothing done or ever received a formal apology regarding the incident in front of the people that were present. All of us workers are considered peons and we are all expendable. This is very sad, but true.

Respectfully,

Edgar Caraballo
City of Lake Worth
Code Compliance Inspector
